# WHY ARE WE CAPABLE OF SUCH A BIG MISSION?

We've been building, managing, and scaling industrial-scale mining operations for nearly a decade.

## **COMPANY CULTURE AND TEAM**

Our vision would never become a reality without our team. We want to connect their faces to the success we achieve.

## **WE SET OUT TO BUILD A BETTER WAY TO INVEST**

Our goal is to build a better financial system for the individual investor — one that is simpler, more reliable, lower cost and transparent.

Although our business and the

technology we build has continued to evolve, our mission has always remained the same: to empower the individual investor. That's why we obsess over things like cost efficiency, minimizing fees, frequent candid communication, and developing smarter tools that provide better insights.

Perhaps the clearest manifestation of this investor-first approach is the fact that we're investor-owned, allowing investors in Asset real estate portfolios to become fellow shareholders of the company itself. This lets us minimize our dependency on outside capital and better align our long-term interests with the long-term interests of our investors — in short, making our success their success.

# Investment Plans

Sustainable Investing is investing in solutions that not only give Financial returns but also generates social and environmental benefits.
